CORRECTIVE NOTICE — Section 19(a)-1

June 2026

Dear Shareholder,

Re: Corrective Notice of the Sources of Distribution Pursuant to Section 19(a) of the Investment Company Act of 1940 and Rule 19a-1 Thereunder

Hartford Low Duration High Income Fund (the “Fund”)

Purpose of This Corrective Notice

Section 19(a) of the Investment Company Act of 1940 (the "1940 Act") requires notice to shareholders when a distribution is paid from any source other than the fund's net investment income. Rule 19a-1 under the 1940 Act requires that such notice disclose the estimated sources of the distribution.

The January 2026 and May 2026 distributions paid by the Fund on February 2, 2026, and June 1, 2026, were reported as net investment income, and no portion was reported as a return of capital. Accordingly, no Section 19(a)-1 notice was issued at the time of the January 2026 and May 2026 distributions.

The Fund has since determined, based on updated information received, that a portion of the Distributions that were originally reported as net investment income should have been reported as a return of capital. Accordingly, the Fund is issuing this corrective notice 19a-1 notice to revise the previously reported estimated sources of the Distribution.

Corrected Estimated Sources of Distribution

The tables below reflect the corrected estimated per-share breakdown of the Distributions:

Important Information — Not for Tax Reporting Purposes

The amounts and sources of distributions reported in this corrective notice are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the Fund's distributions for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations and other factors. A fund typically does not know the final tax character of its distributions until after the close of the Fund's fiscal year.

The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes. Shareholders should not use the information in this notice for tax reporting purposes.

What Is a Return of Capital?

A return of capital distribution occurs when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income." You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the revised characterization of the sources.
